Instructions

Module Deletion Instructions

** Only needs to be deleted if there is an update to the extension*

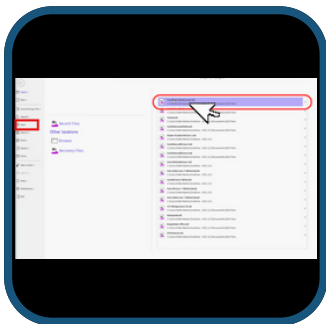

- 1 Locate the export in the Windows search
(C:\ProgramData\Cyncly\Design\14\Config\KCDExport\)

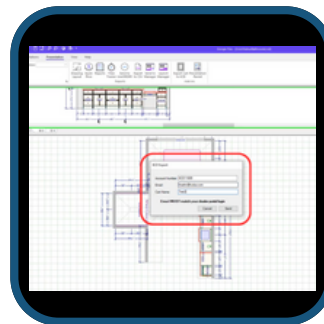

- 2 Select the 2 KCD export config options and delete

Export Instructions

1 Save design

4 Once the pop-up comes up, Fill out the following:

- KCD number
- Email
- Cart name

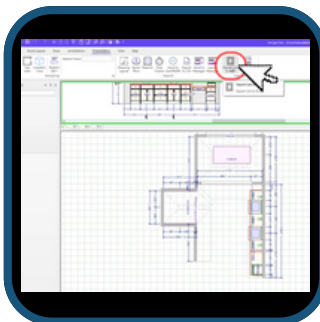

**KCD number can be found in the dealer portal under account overview*

2 Click on the presentations tab

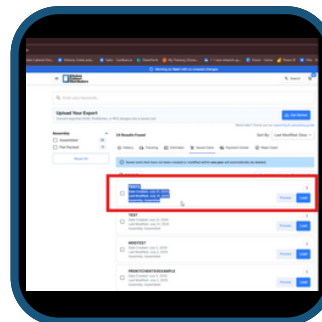

5 Log in to the dealer portal

3 Click on "Export cart to KCD"

**NEW
FEATURE**

6 Export should show under saved carts with the cart name that was entered

Important Details!

- Must be using **Design Flex 14** or greater. (When you do the 2020 update from version 13, it will automatically change to Design Flex.)
- **Dealers** can update within their existing program or through their **Cyncly account**.
- Must be using a **KCD catalog**, and it can be **no more** than a year old.
- Using a **KCD catalog** and another cabinet line catalog will result in some errors.
- The import can transfer **up to 2 catalogs** (multi-color/style designs)
- Always **double-check the cart** before placing orders
- If anything does not import, please reach out to [**fmartin@kcdus.com**](mailto:fmartin@kcdus.com)
